

# World health day celebration 2018

## (Universal health coverage - Everyone Everywhere)

The World Health Organization (WHO) has declared Universal Health Coverage (UHC) as the Theme for this year's World Health Day. The WHO is celebrating its 70th anniversary this year, and is emphasizing Health for all.

Every year we celebrate World Health Day in such a way that to convey the Theme to the people in various ways. This year we have celebrated the WHO day through a panel discussion by the faculties of Vignesh Nursing College at Vignesh Nursing College, Auditorium.

A panel discussion, or simply a panel, involves a group of people gathered to discuss a topic in front of an audience, typically at scientific, business or academic conferences.

Celebrated on 7th April, this year, the WHO is calling on world leaders to live up to the pledges they made when they agreed the Sustainable Development Goals in 2015, and commit to concrete steps to advance the health of all people. This means ensuring that everyone, everywhere can access essential quality health services without facing financial hardship.
